To: All That Want To Book Good Family Entertainment

The Murcia Family "Pirates of the Colombian Caribbean" performed at our fair this past June 2010.

They were truly an aerial high wire act that thrilled our crowds at every show.

The high wire stunts and playfulness on the double wheel of death kept our crowds in awe for their thirty minute performance.

I would recommend them to any fair looking for entertainment value, professionalism and an act that will work with your media and fair management.
